Greater Valparaiso Chamber of Commerce

# 2027 LEGACY OF SERVICE AWARD

The Valpo Chamber Board of Directors created the Legacy of Service Award in 2006 to give recognition to individuals in the community who have, over the course of time or in an extraordinary circumstance, given service to the community beyond what is expected in their profession. They have, in fact, created an example to which others might aspire and a legacy from which others might learn the value of community service. Legacy of Service recipients often are not leaders of organizations or activities, but should actively be, or have been involved in a variety of service opportunities.
